ART MATERIALS

PHN Oil Pastels

• Brilliant, fade-resistant colours • Ideal for most types of paper • Great to use in conjuction with watercolours • Slow drying time, means you can work on a piece for several weeks • Pastels apply smoothly and blend easily using cotton buds, fingers or tortillon for subtle shades, tints and colour mixture (can also be blended with mineral spirits or thinners)

Watercolour Paint

- Vibrant colour paints in easy-to-use tubes
- Dries evenly, fade-resistant, will not crack or flake
- Plastic tubes allow every last drop of paint to be used
- Great in conjunction with oil pastels and colour pencils
- Ideal for layering colour over colour (glazing) without turning muddy

A quill pen is a writing implement made from a mallard flight feather (preferably a primary wing feather) of a large bird. Quills were used for writing with ink before the invention of the dip pen. The metal-nibbed pen and the fountain pen.

A fountain pen is a nib pen that, unlike its predecessors, the dip pen, contains an internal reservoir of liquid ink. The pen always ink from the reservoir through a feed to the nib and dispenses it on paper via a combination of gravity and capillary action.

Experience the next generation of ballpoint pen with the uni-ball air. Featuring smart tip technology. The universal designed ballpoint tip of the air allows free flowing ink to glide smoothly across the paper for skip free writing. With the capability for variable line width according to pressure. air delivers to give writing style and gets better over time. The air writes like a marker but with the durability of a ballpoint pen for superior, smooth writing.
